

Updates to the June 2024 **Circular Of Information For the Use OF Human Blood And Blood Components**

February 1, 2025

REVIEW THIS PAGE FOR IMPORTANT
INFORMATION FROM THE BLOOD SUPPLIER AND
UPDATES REQUIRED BY FDA

Blood components collected
between 11/28/2018 and
06/11/2021 were tested with a
licensed nucleic acid test
(NAT) for Zika Virus RNA
and found to be nonreactive.

223011A-03/22

Cold -Stored Platelets (CSP) are intended for the treatment of active bleeding when conventional platelets are not available, or their use is not practical.

CSP must be stored continuously at 1-6°C to control the risk of bacterial contamination for up to 14 days.

Transfusion services should establish procedures for examining CSP for visible aggregates before transfusion.
