Pinworm Collection - English

95536.49231.0
4/7/2025

TITLE: PINWORM COLLECTION – ENGLISH

Before you collect your sample, do not:

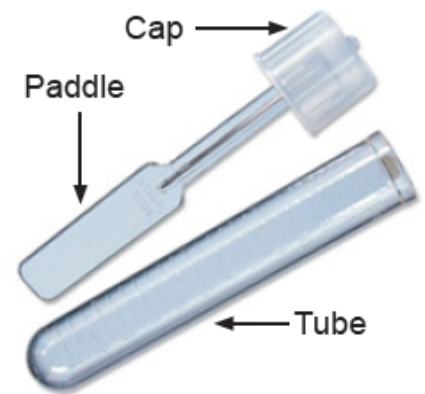

- Shower or bathe
- Go to the bathroom
- Wipe or clean your rectal area
- Apply anything to the skin in the rectal area

How to collect your sample with Pinworm Paddle

It is best to collect your sample first thing in the morning. Make sure to have your collection kit ready.

1. **Wash your hands**
2. Hold the paddle by the cap and remove from the tube. **Do not touch the paddle.**
3. The sticky surface of the paddle will be marked “**sticky side.**”
4. Spread your legs open so your buttocks are **not** touching
5. Press the **sticky side** of the paddle against your anus. Do this several times to get a good sample.
6. Put the paddle back into the container and clip the cap in place.
7. **Wash your hands**
8. Label the tube with your **name, date of birth,** and **date and time** you took the sample.

What to do with my sample?

Keep your sample at room temperature. Take to the lab as soon as possible.

How to collect your sample with ParaClick®

It is best to collect your sample first thing in the morning. Make sure to have your collection kit ready.

1. **Wash your hands**
2. Remove test device from bag.
3. Peel protective film from adhesive area. **Do not touch the adhesive area.**
4. Spread your legs open so your buttocks are **not** touching
5. Press the **adhesive area** against your anus. Do this several times to get a good sample.
6. Fold the test device until you hear a click, to seal and protect the sample
7. **Wash your hands**
8. Label the folded test device with your **name, date of birth**, and **date and time** you took the sample.

What to do with my sample?

Keep your sample at room temperature. Take to the lab as soon as possible.
